

Community Corrections in California:

A Report on the 2016-2018 Biennial Inspection Cycle

**Fiscal Years 2016-2017 and 2017-2018 Legislative Report
Pursuant to Penal Code Section 6031.2**

STATE OF CALIFORNIA – EDMUND G. BROWN, GOVERNOR
BOARD OF STATE AND COMMUNITY CORRECTIONS

Board Members*

Chair, Board of State and Community Corrections..... **Linda Penner**

The Chair of the Board is a full-time paid position appointed by the Governor and subject to Senate Confirmation

Secretary, California Department of Corrections & Rehabilitation (CDCR) **Ralph Diaz (A)**

Director, Adult Parole Operations, CDCR **Jerry Powers**

County Sheriff..... **Dean Growden**

A sheriff in charge of local detention facility with a BSCC rated capacity of 200 inmates or less appointed by the Governor and subject to Senate confirmation
Lassen County

County Sheriff..... **William Gore**

A sheriff in charge of local detention facility with a BSCC rated capacity of more than 200 inmates appointed by the Governor and subject to Senate confirmation
San Diego County

County Supervisor **Leticia Perez**

A county supervisor or county administrative officer appointed by the Governor subject and to Senate confirmation
Kern County

County Chief Probation Officer..... **Mark Varela**

A chief probation officer from a county with a population over 200,000 appointed by the Governor and subject to Senate confirmation
Ventura County

County Chief Probation Officer..... **Michael Ertola**

A chief probation officer from a county with a population under 200,000 appointed by the Governor and subject to Senate confirmation
Nevada County

Retired Judge **Gordon S. Baranco**

A judge appointed by the Judicial Council of California
Alameda County

Chief of Police **Andrew Mills**

A chief of police appointed by the Governor and subject to Senate confirmation
City of Santa Cruz

Community Provider..... **Scott Budnick**

A community provider of rehabilitative treatment or services for adult offenders appointed by the Speaker of the Assembly
Founder of the Anti-Recidivism Coalition

Community Provider..... **David Steinhart**

A community provider or advocate with expertise in effective programs, policies and treatment of at-risk youth and juvenile offenders appointed by the Senate Committee on Rules
Director, Commonwealth Juvenile Justice Program

Public Member **Francine Tournour**

A public member appointed by the Governor and subject to Senate confirmation
Office of Public Safety Accountability

** Board member composition is pursuant to Penal Code 3025*

BSCC Staff

Executive Director..... **Kathleen T. Howard**

Communications Director..... **Tracie Cone**

Deputy Director Standards and Training for Corrections Division..... **Evonne Garner**

Deputy Director Facility and Standards Operation Division..... **Allison Ganter**

INTRODUCTION

Penal Code 6031.2 requires the Board of State and Community Corrections to submit, by the end of even-numbered years, reports to the Legislature showing results of its biennial community corrections facility inspections.

Penal Code section 6031.2 states:

The Board of Corrections¹ shall file with the Legislature on December 30, in each even-numbered year, reports to the Legislature which shall include information on all of the following:

(a) Inspection of those local detention facilities that have not complied with the minimum standards established pursuant to Section 6030. The reports shall specify those areas in which the facility has failed to comply and the estimated cost to the facility necessary to accomplish compliance with the minimum standards.

(b) Information regarding the progress and effectiveness of the standards and training program contained in Sections 6035 to 6037, inclusive.

(c) Status of funds expended, interest earned, actions implementing the prerequisites for funding, any reallocations of funds pursuant to Sections 4497.04 to 4497.16, inclusive, and a complete listing of funds allocated to each county.

(d) Inmate accounting system data to be maintained on an annual basis by the sheriff, chief of police, or other official in charge of operating the adult detention system in a county or city, including all of the following:

(1) Average daily population of sentenced and unsentenced prisoners classified according to gender and juvenile status.

(2) Jail admissions of sentenced and unsentenced prisoners, booking charge, date and time of booking, date and time of release, and operating expenses.

(3) Detention system capital and operating expenses.

(Amended by Stats. 1996, Ch. 805, Sec. 5. Effective January 1, 1997.)

This report, covering Fiscal Years 2016-2018, is an overview of the 460 county jails that make up California's adult community corrections system, including:

- Compliance status of each facility with Title 15 and Title 24 Regulations;
- Effectiveness of corrections officer training through the BSCC Standards and Training for Corrections (STC) Division.
- Demographics of the populations that have been locally incarcerated.

¹ The Board of State and Community Corrections is the successor agency to the Board of Corrections.

Penal Code section 6031.2 (a) requires that this report include the estimated cost to bring non-compliant facilities up to the state's minimum standards. This information is not collected and would be speculative, so it is not included in this report. In addition, 6031.2 (c) reference's a construction bond program that expired in 1988 and information regarding that program will not be included in this report.

SECTION I: ADULT COMMUNITY CORRECTIONS FACILITIES BIENNIAL INSPECTIONS

The BSCC is responsible for the inspection of 460 adult local detention facilities and inspects each within a two-year cycle. The facilities are inspected for compliance with Title 15 and Title 24 regulations and requirements outlined in Penal Code section 6031.1. Title 15 regulations establish minimum standards for administration and operation of the facilities, medical and mental health care, nutritional quality of food, and environmental standards (cleanliness). Title 24 regulations are building standards that establish minimum design and construction requirements.

Each biennial inspection cycle, BSCC Field Representatives visit each facility to conduct a pre-inspection briefing that outlines BSCC expectations for the inspection, including: a review of previous deficiencies, any changes in regulations, and requirements for review of documentation of applicable jail operations. The pre-inspection briefing is designed to facilitate the process and ensure compliance with standards. Following the pre-inspection briefing, Field Representatives conduct an on-site inspection to determine compliance.

Inspection activities include but are not limited to: interviews with facility staff, inmates, and program staff; review of applicable policies; review and observation of documentation of facility procedures, such as grievances, intake screening, and safety checks; and, a walk-through of the physical plant. Following the inspection, BSCC staff provides a detailed inspection debrief to inform facility administrators of any compliance issues. BSCC staff continue to work with facility staff following the on-site inspection to develop and implement a corrective action plan, if necessary. This final phase of the inspection includes a detailed report, follow-up visits and technical assistance to ensure continued compliance. Technical assistance continues throughout the remainder of the inspection cycle.

The most frequently noted deficiencies during the FY 2016- FY 2018 Biennial Inspection Cycle occurred in the following areas (except where noted, these items of noncompliance occurred in all types of local detention facilities):

- Physical plant issues generally associated with crowded or dilapidated conditions.
- Inadequate policies or procedures related to the use of protected areas and services, such as use of sobering or safety cell and restraint chair.
- Inadequate staffing levels that result in late safety checks on offenders or lack of adequate programming or services for offenders.
- Out-of-date policies and procedures and policies inconsistent with facility procedures.

-
- Lack of fire-suppression planning with local fire authorities.
 - In police and sheriff's department substation jails:
 - Staff not receiving eight-hour detention facility training.
 - Lack of adequate policy related to minors in detention.

Appendix A provides a county-by-county summary of compliance issues.

It's important to note that a facility might be out of compliance with only one element of a regulation and not each aspect of a regulation. While all inspections were completed by the end of the last fiscal year, which is within the biennial timeframe, as of December 30, 2018 some facilities are still within the window to complete corrective actions; those compliance statuses are not included in this report.

SECTION II: STANDARDS AND TRAINING IN CORRECTIONS

Standards and Training for Corrections

Penal Code sections 6030, 6035, and 6036 require the BSCC to establish selection and training standards for local corrections personnel. The annual state budget act provides subvention funding to local agencies to help offset the costs of complying with those standards. The BSCC carries out these responsibilities through the Standards and Training for Corrections (STC) Program. This section summarizes program participation, activities and compliance with STC standards.

Program Participation

Participation in the STC Program is voluntary and is open to any local corrections agency that employs adult corrections officers (ACOs), juvenile corrections officers (JCOs), and/or probation officers (POs). This includes sheriffs' departments, probation departments, police departments that operate a jail, or county correctional agencies.

Local agencies that choose to participate in the STC Program receive a wide variety of benefits. These include:

- **Funding** – Participating agencies receive funding administered by STC to apply toward their selection and training costs.
- **Selection and Training Standards** – Participating agencies receive access to validated selection and training tools designed specifically for the community corrections job and made available at little or no cost. These standards also provide legal defensibility in the event of litigation.
- **Course Certification System** – Participating agencies have access to a catalog of corrections training courses that have been certified to a professional standard of quality.
- **STC-Delivered Training** – Participating agencies have access to training designed and delivered free of charge to support their training programs.

- **Technical Assistance and Support** – Participating agencies are assigned an STC Field Representative to provide ongoing program review and support.

During FYs 2016/2017 and 2017/2018, 161 agencies participated in the STC Program, including all county probation departments and sheriffs' departments/departments of corrections that operate jails. That number also includes police departments that operate a Type I or higher-rated jail and seven modified community correctional facilities that operate under contract with the California Department of Corrections and Rehabilitation. The modified community correctional facilities are required to comply with the STC standards but do not receive state subvention funding.

Figure 1 shows the number of participating agencies by type.

Figure 1

Participating Agencies	Fiscal Years 2016/17 & 2017/18
Probation Departments*	59
Sheriff's Departments**	54
Police Departments	39
Departments of Corrections	2
Modified Community Correctional Facilities	7
	<hr/> 161

*San Francisco has an adult and a juvenile probation department

**Alpine County does not operate a jail and Sierra County's jail closed in 15/16

Figure 2 shows the number of local corrections staff trained through the STC Program during FY 2016/2017 and 2017/2018.

Figure 2**Number of Budgeted and STC-Eligible Positions**

Positions	Fiscal Year 2016/17	Fiscal Year 2017/18
Adult Corrections Officers (ACO)	15,550	15,811
Juvenile Corrections Officers (JCO)	6,701	5,934
Probation Officers (PO)	6,915	6,531
Supervisors	3,426	3,309
Managers	1,004	991
Administrators	259	258
Total	33,855	32,384

Selection and Training Standards

The STC program standardizes the selection and training of local corrections staff across the state. This standardization results in a skilled and flexible statewide corrections workforce and significant cost savings. The BSCC sets standards in accordance with Federal Uniform Guidelines on Employee Selection Procedures, which is the professional and legal standard for selection practices. By following these procedures, the BSCC ensures the job relevance of each standard. Establishing job relevance ensures that the community corrections workforce is selected and trained appropriately, and provides legal protection for local agencies in the event of a legal challenge to the standard. The statewide standards also achieve cost savings by eliminating the need for each county to develop its own selection and training standards. It also facilitates the movement of corrections professionals between counties by establishing a community standard and eliminating the need to conduct duplicative selection assessments and training.

The BSCC's selection standards include:

1. a minimum of 18 years of age prior to appointment;
2. competence in oral communication as demonstrated by an interview;
3. passing of a background investigation conducted by the agency;
4. ability to perform essential job functions as demonstrated by meeting guidelines for vision, hearing, and medical screening;
5. achieving a passing score on a written selection examination;
6. successful completion of entry-level core training; and,
7. successful completion of an on-the-job probationary period.

Written Selection Examination

As part of the BSCC's role in setting selection standards for local corrections personnel, the STC Program provides validated written selection examinations for the ACO, JCO, and PO classifications. The written selection examination measures basic abilities and characteristics for successful job performance. Providing the selection examinations offers a significant benefit to counties and cities in that test development is expensive, time consuming, and requires a large sample size and highly technical staff to complete such an endeavor.

While the regulations allow participating agencies to use an alternative selection examination, 135 agencies used the BSCC selection examination in FY 2016/2017 and 134 used it in FY 2017/2018. The alternative examination most frequently used is the Peace Officer Standards and Training (POST) examination because correctional staff can be hired as sheriff's deputies or police officers. During FYs 2016/2017 and 2017/2018, more than 31,000 correctional staff candidates took the STC written selection exam.

Figure 3 shows statewide use of the BSCC's selection examinations in those years by classification.

Figure 3

Selection Examination Usage

Training Standards

Pursuant to the selection standards, each newly hired or promoted local corrections professional must successfully complete a core training course within the first year of job assignment. Although the specific duties and responsibilities of these personnel may differ from one agency to another and from one assignment to another in the same jurisdiction, the core training course addresses the activities or tasks performed by most local corrections workers throughout the state, regardless of the location, size, or budget

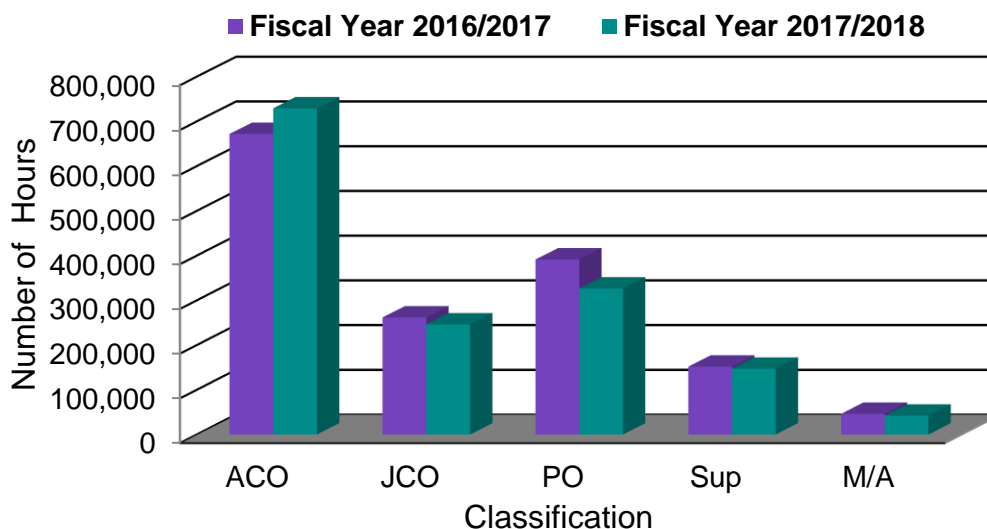

of the employing agency. The core training requirements include prescribed learning objectives, instructional hours, and testing methods.

Once entry-level skills are mastered through the core-training curriculum, local corrections employees move on to develop journey-level skills through annual training. These courses provide in-depth coverage of topics that enhance skills and update employees on changes in their specific job assignments. The BSCC's standard requires that all corrections personnel (line staff through top management) complete a prescribed number of training hours each year, from 24 to 40 hours (depending on job classification).

Figure 4 shows the minimum number of training hours that correctional staff received training FY 2016/2017 and 2017/2018. This is the minimum number of hours required by the STC program. Oftentimes, participating agencies exceed these minimum training hours. The graph is sorted by classification: ACO, JCO, PO, Supervisor (Sup), and Manager/Administrator (M/A).

Figure 4

Number of Minimum Training Hours Completed by Classification

Course Certification and Monitoring System

To support its training standards and the delivery of quality training, STC administers an electronic training certification system that provides local agencies with a large library of job-relevant courses offered by private training providers, colleges, and other local corrections agencies. Local corrections agencies can search STC's course catalog and calendar to identify courses of interest as well as scheduled presentation dates and locations.

The quality of training is assessed through evaluations and course monitoring. Each course is also subject to on-site monitoring by STC as a tool to ensure training quality and to provide technical assistance when needed. Only courses that are STC certified can be used to meet the BSCC's core and annual training standards. Approximately 5,000 training courses are certified by STC each year.

Program Review

Corrections agencies that choose to participate in the STC Program agree to meet the program standards. STC monitors agency compliance with those standards annually, and provides on-going program support and technical assistance in support of local training efforts. An STC Field Representative is assigned to each participating agency to work with them throughout the year to meet their training goals.

During the year-end compliance review, agencies are found to be in full compliance or out of compliance. When the regulations have not been met, it is often due to circumstances beyond the control of the individual agency, such as extended medical leave. In these cases, STC staff makes a recommendation to the BSCC for a finding of full compliance in recognition of the mitigating and approved circumstances.

Figure 5 shows the compliance status of agencies for FY 2016/2017 and 2017/2018.

Figure 5

Compliance Status

	In Compliance	Out of Compliance	Total Participating Agencies
Fiscal Year 2016/17	157 Agencies	4 Agencies	161 Agencies
Fiscal Year 2017/18	152 Agencies	9 Agencies	161 Agencies

Technical Assistance and Training

STC Field Representatives work with participating agencies throughout the year to provide technical assistance in support of local training programs and to help them meet training standards. Technical assistance can range from assessing the appropriateness of a particular training intervention to helping craft action plans intended to improve standards compliance. It also includes providing training to support quality training programs delivered at the local level. STC presented a 20-hour Instructor Development Course (IDC) 11 times during FYs 2016/2017 and 2017/2018. STC also continues to present IDCs specifically designed for core course instructors.

Additional training that STC provides to local agencies includes:

- new training managers course;
- lesson plan development; and
- test administration;

The purpose of these courses is to provide training professionals with foundational skills required to design and deliver quality training.

Figure 6 shows the number of trainings that STC delivered to local training agencies

Special Projects

STC Program Improvement Project Overview

In Fiscal Years 2016/2017 and 2017/2018, the STC Division completed a comprehensive revision of the core training programs for ACO, JCO and PO classifications that must be completed within the first year of hire. The revisions include new content in areas such as prevention of sexual assault and abuse, and gender identification. It also includes an expanded behavioral health module within each core training program to address the training needs resulting from a higher proportion of people in custody and on probation with mental health needs. The behavioral health module also includes training to help officers understand and respond to the impacts their jobs might have on their own mental health. The STC Division is writing a comprehensive lesson plan that will include all instructor materials, student workbooks, test items, and instructional aids to be made freely available to local corrections agencies.

A recently conducted job analysis of the ACO, JCO and PO job revealed a lot of overlap in tasks performed by these jobs. This provides the opportunity to achieve time and cost efficiencies through shared training and selection standards. As part of its core revision project, the STC Division developed shortened academies for staff who transfer from one

corrections classification to another. These transfer academies focus on the unique training needs of the classification and eliminates entry level training that was completed in another classification. The STC Division is also developing a single entry-level written exam for the ACO, JCO and PO classification that will replace the three separate exams that are currently in use. A candidate's score will then be transferrable across classifications.

SECTION III: THE JAIL PROFILE SURVEY

Since 1996 the BSCC has collected information on adults in the custody of community corrections facilities using the Jail Profile Survey (JPS). (Appendix B) The survey relies on jail administrators to input local data into BSCC's web-based portal. BSCC staff reviews the data for inconsistencies that could mean errors in reporting and follows up with the counties to correct if necessary.

Only Type II and III facilities are surveyed through the JPS. Type II facilities house offenders that are pending arraignment, awaiting trial, in trial, or sentenced locally. Type III facilities hold inmates that are serving sentences locally.

The results of the Second Quarter 2018 Adult Jail Profile Survey Results, as required by Penal Code section 6031.2 (d) (1) are as follows:

Average Daily Population: 70,788 (of those 45,408 -- or 64 percent -- were non-sentenced)

- 56 percent of non-sentenced inmates are male
- 8 percent of non-sentenced inmates are female
- 30 percent of sentenced inmates are male
- 6 percent of sentenced inmates are female

The BSCC does not collect data on booking charges, date and time of booking, and date and time of release that is requested for inclusion under Penal Code section 6031.2 (d)(2), so it is not included in this report.

SECTION IV: DETENTION SYSTEM CAPITAL AND OPERATING EXPENSES

The California State Controller's Office keeps records of community corrections facility capital and operational costs. The costs of safely operating and adequately staffing local detention facilities have increased in recent years. The most recent data is from FY 2017.

Figure 7 shows the cost of local adult detention from 2005 to 2017. The most recent cumulative local detention cost available, for 2017, is \$3.322 billion. This is down by \$183 thousand from the previous year.

EXPLANATION OF RESULTS

The following pages contain the Jail Profile Survey (JPS) results for the Second Quarter of Calendar Year 2018. Page 2 contains the quarterly totals based upon the monthly and quarterly data submitted to us by the participating jurisdictions. The information below provides explanations and clarifications of the data presented.

Page 2

- Unless otherwise noted, projected totals are based upon the average per day for the variable in question. For example, there was an average of 70,788 inmates per day in local jails (excluding Type I's) during April through June 2018.
- For some variables (other than "ADP"), we did not receive complete data from all jurisdictions. In such instances, we used statistical procedures to estimate the statewide total.
- The number of "Bookings Per Month" is the average of the monthly totals for April, May, and June 2018.
- For the following variables, the numbers presented are the totals as of the mid-quarter (i.e., May 15, 2018): "Pretrial Release", "Early Release", "2 Strike Inmates", "3 Strike Inmates", "Felony Warrants", "Misdemeanor Warrants", "Juveniles in Custody", and "Criminal / Illegal Aliens [undocumented aliens]".
- "Assaults On Staff" are defined as the total number of serious inmate assaults on staff (resulting in a crime report), statewide, during the Second Quarter of Calendar Year 2018.
- Note: Totals are subject to slight variation due to rounding.

Please note:

- **Proposition 47** was voted into law on November 4, 2014, reducing penalties for certain low-level drug and property crimes from felony to misdemeanor.
- Each quarter, every county with Type II, III, and IV detention facilities submits their data to the BSCC. While we make every effort to review data for accuracy, including contacting individual counties for clarification, the BSCC cannot be responsible for data reporting errors made at the county level. This survey results report presents county data at the specific point in time in which it was posted September 14, 2018. However, upon request of the county, data can be updated as needed.
- The JPS Quarterly Report has been published on the BSCC website in its current form since 2004. As of the Second Quarter 2015 JPS data posting, historical graphs and comments will no longer be included within the report. In an effort to create a better experience for users, the historical graphs will be transitioned over into our Tableau Public Dashboard, "Jail Population Trends." (http://www.bscc.ca.gov/m_data&research.php). By transitioning into the use of our existing Jail Population Trends Dashboard, users will see newly added visualizations that mimic those graphs previously featured in the Quarterly Report. These summary graphs include statewide data for particular JPS variables (i.e. Average Daily Population, Non-Sentenced & Sentenced ADP, etc), without jurisdiction exclusions seen in other dashboard tabs. Users can control these statewide graphs and exclude/include specific counties to create custom visualizations. The source data for these visualizations is the same data found in the JPS Online Querying tool (<https://app.bscc.ca.gov/joq/jps/QuerySelection.asp>).

BOARD OF STATE AND COMMUNITY CORRECTIONS JAIL PROFILE SURVEY

Reporting Period: April to June, 2018

County Jail Populations

ADP ^a	70,788 ^b
Holding Areas	1,653
Average "Under the Roof" ^c	72,441 ^d

Mental Health Beds	5,168

Released Per Month Due to Lack of Space

Pretrial Release	4,064 ^f
Early Release	3,372 ^f
Total	7,436

Inmates with 2 and 3 Strikes

2 Strike Inmates	5,726 ^g
3 Strike Inmates	1,552 ^g
Total	7,278

Unserved Warrants

Felony Warrants	246,989 ^g
Misdemeanor Warrants	1,322,545 ^g
Total	1,569,534

Other Jail Profile Survey Variables

Bookings Per Month	77,631 ^f
Juveniles in Custody	0 ^f
Criminal / Illegal Aliens	6,210
Assaults On Staff	387

- a. The Average Daily Population for all jurisdictions (excluding Type I's) does not include inmates in holding areas.
- b. Unless otherwise indicated, the numbers reported are the average across the days in the quarter.
- c. "Under the Roof" is the sum of the Average Daily Population plus the average daily number of inmates in Holding Areas.
- d. Totals may not be the exact sum of the subtotals due to rounding.
- e. The sum of all Highest One Day inmate population counts from all jurisdictions.
- f. These data are collected on a monthly basis, this figure is an average of the total numbers collected each month during this quarter.
- g. These data are one-day snapshots collected at the end of the quarter.

INTERPRETATION OF TABLE

Jail Populations: **Second Quarter Calendar Year 2018 versus
Second Quarter Calendar Year 2017 (page 7)**

This table:

- summarizes the Average Daily Population (ADP) results for the 58 jurisdictions in California reporting data from Type II, III, and IV jails;
- summarizes jurisdiction ADP results for the most recent quarter (third column from left);
- compares jurisdiction ADP for the most recent quarter with the same quarter last year (second column from left);
- ranks the jurisdictions in terms of gains or losses in ADP from high to low (fourth column from left);
- lists the percentage of growth or decline in ADP for each jurisdiction (fifth column from left);
- lists the percentage of the overall state increase or decrease in ADP that is represented by each jurisdiction (sixth column from left);
- lists by jurisdiction the cumulative percentage increase and decrease in the state ADP (seventh column from left), starting with the jurisdiction with the largest percentage of increase and proceeding to the jurisdiction with the largest percentage of decrease;
- lists by jurisdiction the cumulative total increase and decrease in the state ADP (eighth column from left), starting with the jurisdiction with the highest increase first and proceeding to the jurisdiction with the highest decrease last; and,
- lists the jurisdictions that experienced decreases in their ADP as shaded.

Some important conclusions from this table are:

1. The two numbers at the bottom indicate the “Total Increase” in ADP (in this case 852) and “Total Decrease” in ADP (-5,412). Specifically, the jurisdictions experiencing increases had a total increase of 852 ADP, and the jurisdictions experiencing decreases had a total decrease of -5,412 ADP. Subtracting -5,412 from 852 produces the overall decrease of -4,560 between the Second Quarter of Calendar Year 2018 and the Second Quarter of Calendar Year 2017.
2. Sonoma’s Sheriff’s Department’s ADP increase of 181 is 21.2% of the total increase of 852. Twenty-three jurisdictions had increases (Sonoma Sheriff’s Department to Monterey Sheriff’s Department), with two jurisdictions (Alameda and Tuolumne Sheriff’s Departments) reporting no change. When you get to Santa Ana Police Department, you have accounted for 100% of the increase (100% of the cumulative total of 852).
3. Jurisdictions that experienced a decrease in ADP are listed from smallest decrease to largest decrease (Siskiyou Sheriff’s Department to Santa Clara Corrections Department). When you get to the bottom of the table, you have accounted for 100% of the total decrease of -5,412 inmates.
4. The cumulative percentage of ADP increase for the top four jurisdictions (Sonoma Sheriff’s Department, Orange Sheriff’s Department, Fresno Sheriff’s Department, and Sacramento Sheriff’s Department) is 67%. Four jurisdictions (Solano Sheriff’s Department, San Diego Work Furlough, Madera Corrections Department, and Santa Clara Corrections Department) account for 63% of the total decrease.
