INTRODUCTION

Penal Code 6031.2 requires The Board of State and Community Corrections to submit, by the end of even-numbered years, reports to the Legislature showing results of its biennial community corrections facility inspections.

Penal Code [6031.2](#) states:

The Board of Corrections (now the BSCC) shall file with the Legislature on December 30, in each even-numbered year, reports to the Legislature which shall include information on all of the following:

(a) Inspection of those local detention facilities that have not complied with the minimum standards established pursuant to Section 6030. The reports shall specify those areas in which the facility has failed to comply and the estimated cost to the facility necessary to accomplish compliance with the minimum standards.

(b) Information regarding the progress and effectiveness of the standards and training program contained in Sections 6035 to 6037, inclusive.

(c) Status of funds expended, interest earned, actions implementing the prerequisites for funding, any reallocations of funds pursuant to Sections 4497.04 to 4497.16, inclusive, and a complete listing of funds allocated to each county.

(d) Inmate accounting system data to be maintained on an annual basis by the sheriff, chief of police, or other official in charge of operating the adult detention system in a county or city, including all of the following:

(1) Average daily population of sentenced and un-sentenced prisoners classified according to gender and juvenile status.

(2) Jail admissions of sentenced and un-sentenced prisoners, booking charge, date and time of booking, date and time of release, and operating expenses.

(3) Detention system capital and operating expenses.

(Amended by Stats. 1996, Ch. 805, Sec. 5. Effective January 1, 1997.)

This report, covering Fiscal Years 2012-2014, is an overview of the 493 county jails that make up California's adult community corrections system, including:

- Compliance status of each facility with Title 15 and Title 24 Regulations;
- Effectiveness of corrections officer training through the BSCC Standards and Training for Corrections (STC) Division.

- Demographics of the populations that have been locally incarcerated.

Penal Code section 6031.2 (a) requires that this report include the estimated cost to bring non-compliant facilities up to the state's minimum standards. This information is not collected and would be speculative, so it is not included in this report. In addition, 6031.2 (c) is a reference to a construction bond program that expired in 1988 so it therefore will not be included in this report.

SECTION I

Adult Community Corrections Facilities Biennial Inspections

The BSCC is responsible for the oversight of 493 adult local corrections facilities and inspects each of them within a two-year inspection cycle. The facilities are inspected for compliance with Title 15 and Title 24 regulations. Title 15 regulations outline minimum standards for administration and operation of the facilities, medical and mental health care, nutritional quality of food, and environmental standards (cleanliness). Title 24 regulations set minimum standards for design and construction.

BSCC Field Representatives visit each facility prior to inspections to conduct a pre-inspection briefing that outlines for administrators the expectations for the inspection, including a reminder of the previous inspection's deficiencies, any changes in regulations, and requirements for review of documentation of applicable jail operations. The pre-inspection briefing is designed to facilitate the process and ensure compliance with standards. The on-site inspection occurs later and includes: interviews with facility staff and inmates; review of applicable policies and documentation of facility procedures such as grievances and safety checks; and a walk-through of the physical plant. Following the inspection, BSCC staff informs officials of any compliance issues and works with facility staff to develop a corrective action plan, if necessary. This final phase of the inspection includes a detailed report, follow-up visits and technical assistance to ensure continued compliance.

The most frequently noted deficiencies during the FY 2012- FY2104 Biennial Inspection Cycle occurred in the following areas:

- Physical plant issues generally associated with crowded conditions.
- Inadequate staffing levels that result in late mandated safety checks on offenders.
- Out-of-date policies and procedures.
- Lack of fire-suppression planning.

Figure 1

Article	Number of Instances of Non-Compliance
Physical Plant	234
Training, Personnel & Management	141
Medical and Mental Health Services	97
Classification & Segregation	70
Food	32
Inmate Programs & Services	18
Inmate Clothing and Personal Hygiene	17
Facility Sanitation & Safety	13
Records & Public Information	11
Discipline	7
Bedding & Linens	4
Welfare & Institutions Code	4
Minors in a Law Enforcement Facility	3
Minors in Court Holding Facility	3

Appendix A provides a county-by-county summary of compliance issues.

It's important to note that a facility might be out of compliance with only one element of a regulation and not each aspect of a regulation. While all inspections were completed by the end of the last fiscal year, which is within the biennial timeframe, as of December 30, 2014 some facilities are still within the window to complete corrective actions so those compliance statuses are not included in this report. Those will be included in a supplemental report that will be filed to the Legislature by February 28, 2015.

SECTION II

Standards and Training for Corrections

Penal Code Sections 6030, 6035, 6036 and 6040 require the BSCC to establish selection and training standards for community corrections personnel and to assist in offsetting the costs to local agencies by providing statewide subvention from the Corrections Training Fund (CTF). The BSCC carries out these responsibilities through the Standards and Training for Corrections (STC) Program.

Program Participation

Participation in the STC Program is voluntary and is open to any local agency that employs adult corrections officers (ACOs), juvenile corrections officers (JCOs), and probation officers (POs). This includes sheriff's departments, probation departments, police departments that operate a jail, or county correctional agencies.

Local agencies that choose to participate in the STC Program receive a wide variety of benefits. These include:

- **Funding** – Participating agencies receive funding administered by STC to apply toward their selection and training costs.
- **Selection and Training Standards** – Participating agencies receive access to validated selection and training tools designed specifically for the community corrections job and made available at little or no cost. These standards also provide legal defensibility in the event of litigation.
- **Course Certification System** – Participating agencies have access to a catalog of corrections training courses that have been certified to a professional standard of quality.
- **STC-Delivered Training** – Participating agencies have access to training designed and delivered free of charge to support their training programs.
- **Technical Assistance and Support** – Participating agencies are assigned an STC Field Representative to provide on-going program review and support.

During FY 2012/2013 158 local agencies participated in the STC Program, including all county probation departments and sheriff’s departments/departments of corrections that operate a jail. In FY 2013/2014 the number of participating agencies was 156, which reflected the transition of one police department to contracted staff and the absorption of a juvenile facility under the reporting umbrella of a county probation department.

Figure 2 shows a breakdown of agencies that participate in the program.

Figure 2

Participating Agencies	Fiscal Year 2012/13	Fiscal Year 2013/14
Probation Departments	59*	59*
Sheriff’s Departments	54**	54**
Police Departments	41	40
Juvenile Facilities (other than probation departments)	1	0
Departments of Corrections	3	3

*San Francisco has an adult and a juvenile probation department

**Alpine County does not operate a jail

Funding

The CTF funds the administrative costs of the STC program and provides local assistance funding to participating agencies. The local assistance funds, administered by STC, are intended to assist participating agencies with meeting STC standards and

program goals, and are not intended to fully fund the selection and training programs of local agencies.

The CTF is one of eight special funds comprising the State Penalty Fund. The State Penalty Fund is generated by court fines and penalty assessments collected locally. The CTF receives 7.88 percent of the revenues deposited in the State Penalty Fund each year. In FY 2012/2013 and 2013/2014, the appropriation for the disbursement of local assistance funding was \$19.456 million.

The STC Program distributes local assistance subvention funding to participating local agencies based on the number of part-time or full-time budgeted corrections/probation positions to ensure that available funds are fairly and equitably distributed. Currently, the amount is distributed as follows:

- \$825 for each position that must meet the STC core training requirement (new hire, transfer, or promotion); and,
- \$550 for each position that must meet the STC annual training requirement.

Participating agencies use their STC allocation for four basic expenditure categories: tuition, travel, per diem, and staff replacement costs for trainees. Agencies have discretion over how they spend their allocation within these categories. The flexibility afforded participating agencies in making these allocation decisions enhances the effectiveness of their local training efforts.

Figure 3 shows the number of local corrections staff trained through the STC Program during FY 2012/2013 and 2013/2014.

Figure 3

Number of Budgeted and STC-Eligible Positions

Positions	Fiscal Year 2012/13	Fiscal Year 2013/14
Adult Corrections Officers (ACO)	15,462	15,539
Juvenile Corrections Officers (JCO)	6,851	6,752
Probation Officers (PO)	6,482	6,787
Supervisors	3,191	3,284
Managers	927	912
Administrators	232	237
Total	33,145	33,511

Selection and Training Standards

The STC program standardizes the selection and training of local corrections staff across the state. This standardization results in a skilled and flexible statewide

corrections workforce and significant cost savings. The BSCC sets standards in accordance with Federal Uniform Guidelines on Employee Selection Procedures, which is the professional and legal standard for selection practices. By following these procedures, the BSCC ensures the job relevance of each standard. Establishing job relevance ensures that the community corrections workforce is selected and trained appropriately, and provides legal protection for local agencies in the event of a legal challenge to the standard. The statewide standards also achieve cost savings by eliminating the need for each county to develop its own selection and training standards. It also facilitates the movement of corrections professionals between counties by establishing a community standard and eliminating the need to conduct duplicative selection assessments and training.

The BSCC's selection standards include:

1. a minimum of 18 years of age prior to appointment;
2. competence in oral communication as demonstrated by an interview;
3. passing a background investigation conducted by the agency;
4. ability to perform essential job functions as demonstrated by meeting guidelines for vision, hearing, and medical screening;
5. achieving a passing score on a written selection examination;
6. successful completion of entry-level core training; and,
7. successful completion of an on-the-job probationary period.

Written Selection Examination

As part of the BSCC's role in setting selection standards for local corrections personnel, the STC Program provides validated written selection examinations for the ACO, JCO, and PO classifications. The written selection examination measures basic abilities and characteristics for successful job performance. Providing the selection examinations offers a significant benefit to counties and cities in that test development is expensive, time consuming, and requires a large sample size and highly technical staff to complete such an endeavor.

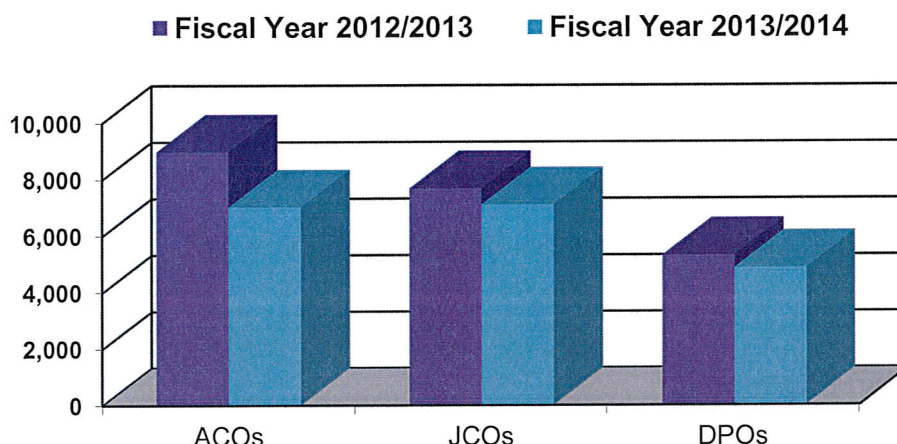

These tests are available in the traditional paper and pencil format and electronically on-line. The on-line version offers more flexibility to local agency hiring efforts in that it allows immediate access and scoring, individual administrations, and an uninterrupted applicant testing process. From a data management standpoint, all candidate information and scores are retained in an on-line database. Local human resource departments have the ability to integrate the data with other software applications.

While the regulations allow participating agencies to utilize an alternative selection examination, 136 agencies used the BSCC selection examination in FY 2012/2013 and 131 used it in FY 2013/2014. The alternative examination most frequently used is the Peace Officer Standards and Training (POST) examination because correctional staff can be hired as sheriff's deputies or police officers.

During FY 2012/2013 and 2013/2014, STC provided administrative oversight of 40,976 written selection examinations to local job candidates. Figure 3 shows statewide use of the BSCC's selection examinations in those years. Test usage appears to be leveling off after a three year period of significantly increased hiring due in part to local recovery from statewide layoffs that had occurred in prior years and the staff needs associated with Public Safety Realignment. Although counties continue to test significantly more applicants than were being tested three years ago, the number of tests administered dropped slightly in FY 2013/2014.

Figure 4

Selection Examination Usage

Training Standards

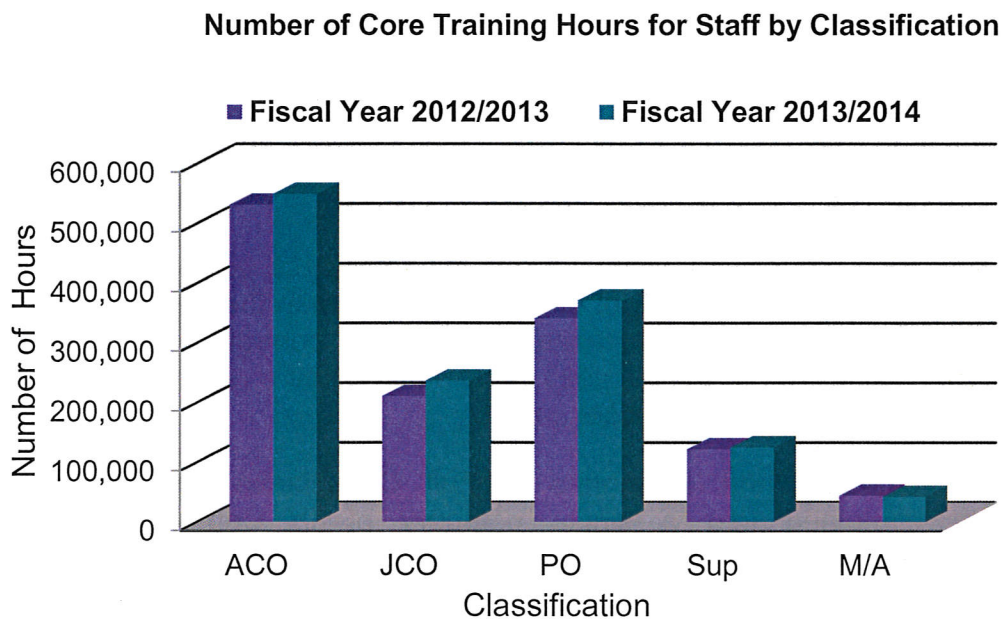

Pursuant to the selection standards, each newly hired or promoted local corrections professional must successfully complete a core training course within the first year of job assignment. Although the specific duties and responsibilities of these personnel may differ from one agency to another and from one assignment to another in the same jurisdiction, the core training course addresses the activities or tasks performed by the majority of local corrections workers throughout the state, regardless of the location, size, or budget of the employing agency. The core training requirements include prescribed learning objectives, instructional hours, and testing methods.

Once entry-level skills are mastered through the core-training curriculum, local corrections employees move on to develop journey-level skills through annual training.

These courses provide in-depth coverage of topics that enhance skills and update employees on changes in their specific job assignments. The content of annual training is determined by each local corrections agency specific to their organizational needs and the needs of their employees. The BSCC's standard requires that all corrections personnel (line staff through top management) complete a prescribed number of training hours each year, from 24 to 40 hours (depending on job classification).

Figure 5 shows the minimum number of training hours that correctional staff received training FY 2012/2013 and 2013/2014. This is the minimum number of hours required by the STC program. Oftentimes, participating agencies exceed these minimum training hours. The graph is sorted by classification: ACO, JCO, PO, supervisor (Sup), and manager/administrator (M/A).

Figure 5

Course Certification and Monitoring System

To support its training standards and the delivery of quality training, STC administers an electronic training certification system that provides local agencies with a large library of job-relevant courses offered by private training providers, colleges, and other local corrections agencies. Local corrections agencies can search STC's course catalog and calendar to identify courses of interest as well as scheduled presentation dates and locations.

STC's certification system includes reviewing each course submission to ensure it is job relevant, has measurable performance objectives, is taught by a qualified instructor, includes appropriate testing methods, and is cost effective. STC's course certification process is designed to ensure that training has a positive effect on competency and job performance.

The quality of training is assessed through evaluations and course monitoring. Each STC-certified course is evaluated by the attending trainees. Those evaluations are provided to the participating agencies. This allows the agency to verify that the needs of their trainees are being met. Each course is also subject to on-site monitoring by STC as a tool to ensure training quality and to provide technical assistance when needed. Only courses that are STC certified can be used to meet the BSCC's core and annual training standards. Approximately 5,000 training courses are certified by STC each year.

Program Review

Corrections agencies that choose to participate in the STC Program agree to meet the program standards. STC monitors agency compliance with those standards annually, and provides on-going program support and technical assistance in support of local training efforts. An STC Field Representative is assigned to each participating agency to work with them throughout the year to meet their training goals. STC staff meets regularly with local officials to plan, create, and revise an annual training plan. At the conclusion of each year, participating agencies and STC staff conduct a comprehensive review of the plan to determine the agency's progress with meeting the selection and training standards. This review also provides a platform from which to engage in action planning to improve the agency's selection and training program in the future.

During the year-end comprehensive review of the training progress, agencies are found to be in full or substantial compliance or out of compliance. When the regulations have not been met, it is often due to circumstances beyond the control of the individual agency, such as medical leave. In these cases, STC staff makes a recommendation to the BSCC for a finding of substantial compliance.

Beginning in FY 2013/2014 the categories of Full Compliance and Substantial Compliance were combined into a single category of In Compliance. The circumstances that were considered in a finding of Substantial Compliance are now included in a finding of In Compliance. Figure 6 shows the compliance status of agencies for FY 2012/2013 and 2013/2014.

Figure 6

Compliance Status

	In Compliance	Substantial Compliance	Out of Compliance
Fiscal Year 2012/13	78 Agencies	75 Agencies	6 Agencies
Fiscal Year 2013/14	145 Agencies	N/A	11 Agencies

Technical Assistance and Training

STC Field Representatives work with participating agencies throughout the year to provide technical assistance in support of local training programs and to help them meet

training standards. Technical assistance can range from assessing the appropriateness of a particular training intervention to helping craft action plans intended to improve standards compliance. It also includes providing training to support quality training programs delivered at the local level.

In recent years, there has been an increase in the development and delivery of in-house training within agencies. In response, STC has increased the number of courses that it offers and expanded its course catalog to meet the emerging needs of agency training programs. STC presented a 20-hour Instructor Development Course (IDC) on twenty occasions during FY 2012/2013 and on twelve occasions during FY 2013/2014. STC also continues to present IDCs specifically designed for core course instructors. Additional training that STC provides to local agencies includes:

- new training managers orientation;
- lesson plan development; and
- test administration;

The purpose of these courses is to provide training professionals with foundational skills required to design and deliver quality training.

Special Projects

In Fiscal Year 2012/2013, the STC Division completed a comprehensive assessment of its regulations, policies and procedures to determine how the program could best meet the training needs of local corrections agencies. Under the direction of an Executive Steering Committee (ESC), informed by a stakeholder survey, and approved by the Board, numerous policy changes, regulation revisions, and short term program improvement strategies were adopted. In addition, the ESC made several recommendations for longer term program improvements including reviewing and revising the program standards, streamlining records and processes through a Learning Management System (LMS), and expanding the technical assistance, training and consulting services offered to local agencies.

In FY 2012/13, the STC Division kicked off the Local Selection and Training Standards (LSATS) Project to conduct a comprehensive assessment and revision of its selection and training standards. The LSATS project is a multi-year endeavor which includes the following components:

Job Analysis – An analysis of the Adult Corrections Officer, Juvenile Corrections Officer and Probation Officer jobs to determine how they have changed over time and as a result of Realignment. The analysis will define the tasks that are performed by these positions and the knowledge, skills and abilities that are necessary for successful job performance. The job analysis will serve as the foundation for subsequent changes to selection and training standards.

How the Jobs Have Changed – This study will focus on how the ACO, JCO and PO jobs as well as the supervisory and managerial jobs for those positions have changed since

Realignment. This study provides the ability to identify the training needs associated with Realignment.

Agency Specific Job Analysis Results – Each agency that participates in the job analysis questionnaire will receive a report that compares the agency's responses with the statewide findings as a tool for identifying agency specific training needs.

Interim Training Needs – Interim training guidelines will be developed to meet the immediate training needs of realignment while the core curriculum is updated.

Updated Core Training – The core training curriculum and requirements for the ACO, JCO, PO, Supervisory and Manager jobs will be updated to reflect the findings of the job analysis.

Updated Selection Examination – A single and updated entry-level written selection examination will be developed for the ACO, JCO and PO positions.

The STC program made significant progress in FY 2013/2014 on the job analysis and study of how the jobs of entry level corrections professionals have changed since the last analysis was conducted over 12 years ago. Several workgroup meetings were held with administrators, supervisors, and job incumbents to identify areas of change, the tasks that are performed, and the knowledge, skills and abilities required for successful job performance. That data was compiled into a questionnaire that was completed by 4,750 staff from 150 Sheriff, Probation and Police Agencies statewide – an 80% rate of return.

The final job analysis report, the study of how the job has changed, and the agency specific reports will be finalized in January 2015. In February 2015, the STC Program will request the convening of an Executive Steering Committee to begin the standards revision process.

SECTION III

The Jail Profile Survey

Since 1996 the BSCC has collected information on adults in the custody of community corrections facilities using the Jail Profile Survey (JPS). (Appendix B) The survey relies on jail administrators to input local data into BSCC's web-based portal. BSCC staff reviews the data for inconsistencies that could mean errors in reporting and follows up with the counties to correct data if necessary.

Only Type II and III facilities are surveyed through the JPS. Type II facilities house offenders that are pending arraignment, awaiting trial, in trial, or sentenced locally. Type III facilities hold inmates that are serving sentences locally.

The results of the Calendar Year 2013 Adult Jail Profile Survey Results required by Penal Code 6031.2 (d)(1) are as follows:

Average Daily Population: 81,018 (of those 51,296 – or 63 percent -- were non-sentenced)

- 88 percent of non-sentenced inmates are male
- 12 percent of non-sentenced inmates are female
- 85 percent of sentenced inmates are male
- 15 percent of sentenced inmates are female

The BSCC does not collect data on booking charges, date and time of booking, and date and time of release that is requested for inclusion under PC 6031.2 (d)(2), so it is not included in this report.

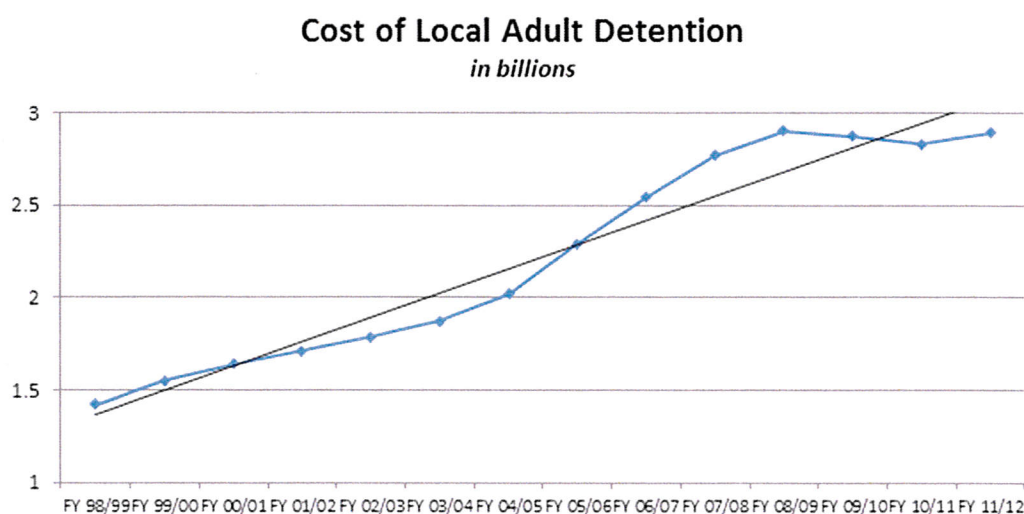

SECTION IV

Detention System Capital and Operating Expenses

The California State Controller’s Office keeps records of community corrections facility capital and operational costs. The costs of safely operating and adequately staffing local detention facilities have increased in recent years. The most recent data is from FY 2011-2012.

Figure 7 shows the cost of local adult detention from FY 1998-1999 to FY 2011-2012. The most recent cumulative local adult detention cost available, for FY 2011-2012, is \$2.896 billion, a slight increase from the previous fiscal year but a 69 percent increase from Fiscal Year 2001-2002.

Figure 7

Source: Counties Annual Report, State Controller’s Office
Detailed Statement of General County Financing Uses by Budget Units
http://www.sco.ca.gov/ard_locrep_counties.html

In 2012, the BSCC requested data from each Type II and III local detention facility relative to the Average Daily Cost (ADC) to incarcerate inmates. The majority of facilities (92.9 percent) responded to our inquiry, which represented data from Calendar Years 2010 and 2011. The request included reporting costs related to:

- Salary and benefits for staff;
- Food costs;
- Inmate clothing and supplies;
- Medical and mental health services;
- Medical supplies;
- Contract maintenance;
- Inmate transportation;
- Percentage of staff time used for jail administration (for example: if a sheriff and their staff may spend 30% of their time working on jail related issues, then 30% of their salaries and benefits can be used); and
- Any other legitimate jail related expense(s).

The weighted statewide ADC to incarcerate an inmate during 2010-2011 was \$113.87 per day, a 1.3 percent increase from 2009's ADC of \$112.39. Results of this survey by county are in Appendix C. The BSCC staff will request updated ADC data from the counties in 2015.

EXPLANATION OF RESULTS

The following pages contain the Jail Profile Survey (JPS) results for the Second Quarter of Calendar Year 2014. Page 2 contains the quarterly totals based upon the monthly and quarterly data submitted to us by the participating jurisdictions. Pages 3 and 4 show the trend data for the last 10 years on variables we have been tracking. The information below provides explanations and clarifications of the data presented.

Page 2

- Unless otherwise noted, projected totals are based upon the average per day for the variable in question. For example, there was an average of 83,119 inmates per day in local jails (excluding Type I's) during April through June 2014.
- For some variables (other than "ADP"), we did not receive complete data from all jurisdictions. In such instances, we used statistical procedures to estimate the statewide total.
- The number of "Bookings Per Month" is the average of the monthly totals for April, May, and June 2014.
- For the following variables, the numbers presented are the totals as of the mid-quarter (i.e., May 15, 2014): "Pretrial Release", "Early Release", "2 Strike Inmates", "3 Strike Inmates", "Felony Warrants", "Misdemeanor Warrants", "Juveniles in Custody", and "Criminal / Illegal Aliens [undocumented aliens]".
- "Assaults On Staff" are defined as the total number of serious inmate assaults on staff (resulting in a crime report), statewide, during the Second Quarter of Calendar Year 2014.
- Note: Totals are subject to slight variation due to rounding.

Pages 3 and 4

- The data in the 10-Year Summary tables are based upon survey data that the Board of State and Community Corrections (BSCC) has gathered since the early 1980's.
- Prior to 1995, yearly averages were reported on an annual basis. Yearly averages from 1996 to the present time have been the average of the 12 calendar months. (In 1995, the yearly figure reported is the fourth quarter average, since we do not have data from the first three quarters.)

Please note: Each quarter, every county with Type II, III, and IV detention facilities submits their data to the BSCC. While we make every effort to review data for accuracy, including contacting individual counties for clarification, the BSCC cannot be responsible for data reporting errors made at the county level. This survey results report presents county data at the specific point in time in which it was posted (December 12, 2014). However, upon request of the county, data can be updated as needed.

BOARD OF STATE AND COMMUNITY CORRECTIONS JAIL PROFILE SURVEY

Reporting Period: April to June, 2014

County Jail Populations

ADP ^a	83,119 ^b
Holding Areas	1,454
Average "Under the Roof" ^c	84,573 ^d
Highest One Day Count	86,887 ^e

Special Use Beds

Medical Beds	1,054
Mental Health Beds	2,956

County Jail Populations

Felony	73,259
Misdemeanor	9,860
Total	83,119
Non-Sentenced Males	45,538
Non-Sentenced Females	6,224
Sentenced Males	26,465
Sentenced Females	4,892
Total	83,119
Maximum Security Inmates	23,714
Medium Security Inmates	34,732
Minimum Security Inmates	24,673
Total	83,119

Released Per Month Due to Lack of Space

Pretrial Release	8,262 ^f
Early Release	5,818 ^f
Total	14,080

Inmates with 2 and 3 Strikes

2 Strike Inmates	4,774 ^g
3 Strike Inmates	1,787 ^g
Total	6,561

Unserviced Warrants

Felony Warrants	252,828 ^g
Misdemeanor Warrants	1,447,433 ^g
Total	1,700,261

Inmates From Other Jurisdictions

Housed on Federal Contract	3,068
Housed on Contract with CDC	0
From Other Counties on Contract	169
Awaiting Transport	1,391
Total	4,628

Other Jail Profile Survey Variables

Bookings Per Month	91,097 ^f
Juveniles in Custody	0 ^f
Criminal / Illegal Aliens	8,288
Assaults On Staff	386

- a. The Average Daily Population for all jurisdictions (excluding Type I's) does not include inmates in holding areas.
- b. Unless otherwise indicated, the numbers reported are the average across the days in the quarter.
- c. "Under the Roof" is the sum of the Average Daily Population plus the average daily number of inmates in Holding Areas.
- d. Totals may not be the exact sum of the subtotals due to rounding.
- e. The sum of all Highest One Day inmate population counts from all jurisdictions.
- f. These data are collected on a monthly basis, this figure is an average of the total numbers collected each month during this quarter.
- g. These data are one-day snapshots collected at the end of the quarter.

Jail Profile Survey

2014

Average Daily Population

10 Year Summary										
2004	2005	2006	2007	2008	2009	2010	2011	2012	2013	2014
76,887	79,705	81,104	83,184	82,397	80,865	73,444	71,015	77,818	81,818	83,119

The Average Daily Population (ADP) of 83,119 for the second quarter 2014 represents a slight increase over the first quarter 2014, and reflects an increase in ADP for 12 consecutive quarters. The ADP for the second quarter 2014 represents a 1.3% increase over the second quarter 2013.

Quarterly Results

	Q1	Q2	Q3	Q4	Average
2013	80,842	82,019	82,145	82,249	81,818
2014	82,527	83,119			82,825

Non-sentenced ADP

10 Year Summary										
2004	2005	2006	2007	2008	2009	2010	2011	2012	2013	2014
50,715	53,357	54,585	56,571	56,232	54,589	52,059	49,705	48,975	51,296	51,762

The Non-Sentenced ADP was 51,762 for the second quarter 2014, representing a slight increase over the first quarter 2014, as well as a slight increase over the second quarter 2013.

Quarterly Results

	Q1	Q2	Q3	Q4	Average
2013	50,574	51,400	51,731	51,465	51,296
2014	51,488	51,762			51,626

Sentenced ADP

10 Year Summary										
2004	2005	2006	2007	2008	2009	2010	2011	2012	2013	2014
26,171	26,347	26,519	26,613	26,165	26,277	21,385	21,310	28,844	30,522	31,357

The Sentenced ADP was 31,357 for the second quarter 2014, representing a 1% increase over the first quarter 2014 and an increase of 2.4% over the second quarter of 2013.

Quarterly Results

	Q1	Q2	Q3	Q4	Average
2013	30,268	30,619	30,414	30,784	30,522
2014	31,039	31,357			31,199

INTERPRETATION OF TABLE

Jail Populations: Second Quarter Calendar Year 2013 versus Second Quarter Calendar Year 2014 (page 7)

This table:

- summarizes the Average Daily Population (ADP) results for the 60 jurisdictions in California reporting data from Type II, III, and IV jails;
- summarizes jurisdiction ADP results for the most recent quarter (third column from left);
- compares jurisdiction ADP for the most recent quarter with the same quarter last year (second column from left);
- ranks the jurisdictions in terms of gains or losses in ADP from high to low (fourth column from left);
- lists the percentage of growth or decline in ADP for each jurisdiction (fifth column from left);
- lists the percentage of the overall state increase or decrease in ADP that is represented by each jurisdiction (sixth column from left);
- lists by jurisdiction the cumulative percentage increase and decrease in the state ADP (seventh column from left), starting with the jurisdiction with the largest percentage of increase and proceeding to the jurisdiction with the largest percentage of decrease;
- lists by jurisdiction the cumulative total increase and decrease in the state ADP (eighth column from left), starting with the jurisdiction with the highest increase first and proceeding to the jurisdiction with the highest decrease last; and,
- lists the jurisdictions that experienced decreases in their ADP as shaded.

Some important conclusions from this table are:

1. The two numbers at the bottom indicate the "Total Increase" in ADP (in this case 2,272) and "Total Decrease" in ADP (1,173). Specifically, the jurisdictions experiencing increases had a total increase of 2,272 ADP, and the jurisdictions experiencing decreases had a total decrease of 1,173 ADP. Subtracting 1,173 from 2,272 produces the overall increase of 1,099 between the Second Quarter of Calendar Year 2013 and the Second Quarter of Calendar Year 2014.
2. The Los Angeles Sheriff's Department's ADP increase of 436 is 19.2% of the total increase of 2,272. Thirty-six jurisdictions had increases (Los Angeles Sheriff's Department to Modoc Sheriff's Department), with one jurisdiction (Tehama Sheriff's Department) reporting no change. When you get to Modoc Sheriff's Department, you have accounted for 100% of the increase (100% of the cumulative total of 2,272).
3. Jurisdictions that experienced a decrease in ADP are listed from smallest decrease to largest decrease (Calaveras Sheriff's Department to San Francisco Sheriff's Department). When you get to the bottom of the table, you have accounted for 100% of the total decrease of 1,173 inmates.
4. The cumulative percentage of ADP increase for the top four jurisdictions (Los Angeles Sheriff's Department, Sacramento Sheriff's Department, San Diego Sheriff's Department, and Santa Clara Corrections Department) is 50.7%. Four jurisdictions (Monterey Sheriff's Department, San Bernardino Sheriff's Department, Fresno Sheriff's Department, and San Francisco Sheriff's Department) account for 65.6% of the total decrease.
