

2019-2022 TITLE II FORMULA GRANT BOARD OF STATE AND COMMUNITY CORRECTION (BSCC)

NORTH COUNTY LIFELINE PROGRESS REPORT PART B BSCC 306-19

Includes the following:

1. OFFICE OF JUVENILE JUSTICE AND DELINQUENCY PREVENTION TITLE II FORMULA GRANT PROGRAM PA 5: COMMUNITY-BASED PROGRAMS AND SERVICES

2. OFFICE OF JUVENILE JUSTICE AND DELINQUENCY PREVENTION TITLE II FORMULA GRANT PROGRAM PA 22: DIVERSION

NORTH COUNTY LIFELINE PROGRESS REPORT PART B

OFFICE OF JUVENILE JUSTICE AND DELINQUENCY PREVENTION TITLE II FORMULA GRANT PROGRAM

PA 5: COMMUNITY-BASED PROGRAMS AND SERVICES

Bold indicates mandatory measures

These programs and services are those that work pre- and post-confinement with:

- a. parents and other family members to strengthen families to help keep youth in their homes;
- b. youth during confinement and their families to ensure safe return of youth home and to strengthen the families; and
- c. parents with limited English-speaking ability.

Enter data for all mandatory and applicable measures.

Enter zero (0) if you are able to collect and report data for the measure but there was no activity during the reporting period. If you enter 0 for another reason (e.g., data not tracked, activity not applicable), please explain in the text box available at the end of data reporting.

PA 5: COMMUNITY-BASED PROGRAMS AND SERVICES

#	Measure	Definition	Data Grantee Reports	Record Data Here
1	Number of MOUs developed	The number of Memoranda of Understanding (MOUs) or interagency agreements developed during the reporting period. Include all formal partnership or coordination agreements. Program records are the preferred data source.	A. Number of MOUs developed during the reporting period	
2	Number of program slots available	The number of client service slots available during the reporting period. If slots were lost over the reporting period, please report a negative number. Program records are the preferred data source.	A. Number of client service slots available during the reporting period	
3	Number of FTEs funded with Formula Grant funds	The number of staff funded by Formula Grants (FGs), as measured through the number of full-time equivalent (FTE) staff working for the program during the reporting period. To calculate FTE, divide the number of staff hours used by the program by 2080.	A. Number of FTEs funded with FG funds	
4	Number of program materials developed	The number of program materials developed during the reporting period. Include only substantive materials such as program overviews, client workbooks, and lists of local service providers. Do not include program advertisements or administrative forms, such as sign-in sheets or client- tracking forms. Count the number of pieces developed. Program records are the preferred data source.	A. Number of program materials developed	
5	Number and percent of program staff trained	The number and percent of program staff trained during reporting period. Program staff includes full- and part-time employees and/or volunteers. The number is the raw number of staff to receive any formal training relevant to the program or their position as program staff. Include any training from any source or medium received during the reporting period as long as receipt can be verified. Training does not have to be completed during the reporting period. To get the percent, divide the raw number by the total number of program staff. Program records are the preferred data source.	A. Number of staff that participated in trainingB. Total number of program staffC. Percent (A/B)	
6	Number of hours of training provided program staff	The number of training hours provided to program staff during the reporting period. Training includes in-house and external trainings.	A. Number of hours of training provided to program staff	
7	Number of planning activities conducted	The number of planning activities undertaken during the reporting period. Planning activities include meetings held and needs assessments undertaken.	A. Number of planning activities undertaken	
8	Number of program/agency policies or procedures created, amended, or rescinded	The number of program/agency policies or procedures created, amended, or rescinded during the reporting period. A policy is a plan or specific course of action that guides the general goals and directives of the program or agency. Include program policies that are either relevant to the topic area or affect program operations.	A. Number of program/agency policies or procedures created, amended, or rescinded	
9	Number of program youth served	An unduplicated count of the number of youth served by the program during the reporting period. Definition of the number of youth served for a reporting period is the number of program youth carried over from the previous reporting period, plus new admissions during the reporting period. In calculating the 3-year summary, the total number of youth served is the number of participants carried over from the year previous to the first fiscal year, plus all new admissions during the 3 reporting fiscal years. Program records are the preferred data source.	A. Number of program youth carried over from the previous reporting period, plus new admissions during the reporting period	

PA 5: COMMUNITY-BASED PROGRAMS AND SERVICES

#	Measure	Definition	Data Grantee Reports	Record Data Here
10	Number of enrolled parents or guardians served during the reporting period	An unduplicated count of the number of enrolled parents or guardians served by the program during the reporting period. Program records are the preferred data source.	 A. Number of enrolled parents or guardians carried over from the previous reporting period B. New admissions during the reporting period. C. Total of enrolled parents and guardians served during the reporting period (A+B) 	
11	Number of additional family members served during the reporting period	An unduplicated count of the number of additional family members (youth and adults) served by the program during the reporting period. Program records are the preferred data source.	 A. Number of additional family members carried over from the previous reporting period B. New admissions during the reporting period C. Total (A+B) 	
12	Number and percent of youth who exited Formula programs either to reunification, adoption, or legal guardianship (since the most recent admission to foster care date)	Of the total number of youth who exited Formula programs, the number to exit either to reunification, adoption, or legal guardianship. Program records are the preferred data source.	 A. Number of youth, at the time of their most recent entry into foster care, who left foster care during the reporting period B. Number of those youth, at the time of their most recent entry into foster care, who left foster care during the reporting period either to reunification, adoption, or legal guardianship C. Percentage of youth in foster care during the reporting period who left to either reunification, adoption, or legal guardianship 	
13	Number of service hours completed	The number of hours of service completed by program youth during the reporting period. Service is any explicit activity (such as program contact, counseling sessions, course curriculum, community service, etc.) delivered by program staff or other professionals that is dedicated to completing the program requirements. Program records are the preferred data source.	A. Total number of program youth service hours	
14	Average length of stay in program	The average number of days that youth remain in the program. Include data for youth who complete program requirements prior to program exit and for those who do not. Program records are the preferred data source.	 A. Total number of days between intake and program exit across all program youth exiting program B. Number of cases closed C. A/B 	

PA 5: COMMUNITY-BASED PROGRAMS AND SERVICES

#	Measure	Definition	Data Grantee Reports	Record Data Here
15	Number and percent of program youth who OFFEND (short term)	The number and percent of participating program youth who were arrested or seen at a juvenile court for a delinquent offense during the reporting period. Appropriate for any youth-serving program. Official records (police, juvenile court) are the preferred data source. The number of youth tracked should reflect the number of program youth who are followed or monitored for arrests or offenses. Ideally this number should be all youth served by the program during the reporting period. A youth may be "committed" to a juvenile facility any time that he/she is held overnight. Certain jurisdictions refer to adjudications as "sentences." Other sentences may be community-based sanctions, such as community service, probation, etc. Example: If I am tracking 50 program youth, then B would be 50. Of these 50 program youth I am tracking, if 25 were arrested or had a delinquent offense during the reporting period, then C would be 25. This logic should follow for D, E, and F values. The percent of youth offending who are measured short term will be autocalculated in G.	 A. Total number of program youth served during the reporting period B. Number of program youth tracked during the reporting period C. Of B, the number of program youth who had an arrest or delinquent offense during the reporting period D. Number of program youth who were committed to a juvenile facility during the reporting period E. Number of program youth who were sentenced to adult prison during the reporting period F. Number of youth who received another sentence during the reporting period G. Percent OFFENDING (C/B) 	
16	Number and percent of program youth who OFFEND (long term)	The number and percent of participating program youth who were arrested or seen at a juvenile court for a delinquent offense during the reporting period. Appropriate for any youth-serving program. Official records (police, juvenile court) are the preferred data source. The number of youth tracked should reflect the number of program youth who are followed or monitored 6–12 months after completing program requirements. A youth may be "committed" to a juvenile facility any time that he/she is held overnight. Certain jurisdictions refer to adjudications as "sentences." Other sentences may be community-based sanctions, such as community service, probation, etc. Example: A grantee may have several youth who exited the program 6–12 months ago; however, they are tracking only 100 of them. Therefore, the A value will be 100. Of these 100 program youth who exited the program 6–12 months ago, 65 had an arrest or delinquent offense during the reporting period; therefore, the B value should be recorded as 65. This logic should follow for C, D, and E values. The percent of youth offending who are measured long term will be autocalculated in F.	 A. Total number of program youth tracked during the reporting period who exited the program 6-12 months ago B. Of A, the number of program youth who had an arrest or delinquent offense during the reporting period C. Number of program youth who were committed to a juvenile facility during the reporting period D. Number of program youth who were sentenced to adult prison during the reporting period E. Number of youth who received another sentence during the reporting the reporting period F. Percent OFFENDING (B/A) 	

PA 5: COMMUNITY-BASED PROGRAMS AND SERVICES

#	Measure	Definition	Data Grantee Reports	Record Data Here
17	Number and percent of program youth who RE-OFFEND (short term)	The number and percent of participating program youth who were arrested or seen at a juvenile court for a new delinquent offense during the reporting period. Appropriate for any youth-serving program. Official records (police, juvenile court) are the preferred data source. The number of youth tracked should reflect the number of program youth who are followed or monitored for new arrests or offenses. Ideally this number should be all youth served by the program during the reporting period. Certain jurisdictions refer to adjudications as "sentences." Other sentences may be community-based sanctions, such as community service, probation, etc. Example: If I am tracking 50 program youth, the B value would be 50. Of these 50 program youth I am tracking, if 25 had a new arrest or a new delinquent offense during the reporting period, then C would be 25. This logic should follow for D, E, and F values. The percent of youth reoffending who are measured short term will be autocalculated in G.	 A. Total number of program youth served during the reporting period B. Number of program youth tracked during the reporting period C. Of B, number of program youth who had a new arrest or new delinquent offense during the reporting period D. Number of program youth who were recommitted to a juvenile facility during the reporting period E. Number of program youth who were sentenced to adult prison during the reporting period F. Number of youth who received another sentence during the reporting period G. Percent RECIDIVISM (C/B) 	
18	Number and percent of program youth who RE-OFFEND (long term)	The number and percent of participating program youth who were arrested or seen at a juvenile court for a new delinquent offense during the reporting period. Appropriate for any youth-serving program. Official records (police, juvenile court) are the preferred data source. The number of youth tracked should reflect the number of program youth who are followed or monitored 6–12 months after completing program requirements. Certain jurisdictions refer to adjudications as "sentences." Other sentences may be community-based sanctions, such as community service, probation, etc. Example: A grantee may have several youth who exited the program 6–12 months ago; however, they are tracking only 100 of them. Therefore, the A value will be 100. Of these 100 program youth who exited the program 6–12 months ago, 65 had an arrest or delinquent offense during the reporting period; therefore, the B value should be recorded as 65. This logic should follow for C, D, and E values. The percent of youth offending who are measured long term will be autocalculated in F.	 A. Total number of program youth tracked during the reporting period who exited the program 6-12 months ago B. Of A, the number of program youth who had a new arrest or new delinquent offense during the reporting period C. Number of program youth who were recommitted to a juvenile facility during the reporting period D. Number of program youth who were sentenced to adult prison during the reporting period E. Number of youth who received another sentence during the reporting period F. Percent RECIDIVISM (B/A) 	
19a	Family relationships (short term)	The number and percent of program youth who have exhibited a desired change in family relationships during the reporting period. Such changes are positive ones that could be related to increased positive interaction with family members. Examples are improved communication and increased emotional and practical support. Self-report or staff ratings are the most likely data sources.	 A. Number of program youth served during the reporting period with the noted behavioral change B. Total number of youth receiving services for target behavior during the reporting period C. Percent (A/B) 	

PA 5: COMMUNITY-BASED PROGRAMS AND SERVICES

#	Measure	Definition	Data Grantee Reports	Record Data Here
19a	Family relationships (long term)	The number and percent of program youth who have exhibited a desired change in family relationships 6–12 months after exiting the program. Such changes are positive ones that could be related to increased positive interaction with family members. Examples are improved communication and increased emotional and practical support. The number of youth tracked should reflect the number of program youth who are followed or monitored 6–12 months after completing program requirements. Self-report or staff ratings are the most likely data sources.	 A. Total number of program youth exiting the program 6-12 months ago tracked for the target behavior during the reporting period B. Of A, the number of program youth with the noted behavioral change during the reporting period C. B/A 	
19b	Antisocial behavior (short term)	The number and percent of program youth who have exhibited a desired change in antisocial behavior during the reporting period. Antisocial behavior is defined as a pervasive pattern of behavior that displays disregard for and violation of the rights of others, societal mores, or the law (such as deceitfulness, irritability, fighting, disruptive behavior, consistent irresponsibility, lack of remorse, or failure to conform to social norms). Self-report or staff ratings are the most likely data sources.	 A. Number of program youth served during the reporting period with the noted behavioral change B. Total number of youth receiving services for the target behavior during the reporting period C. Percent (A/B) 	
19b	Antisocial behavior (long term)	The number and percent of program youth who exhibited a desired change in antisocial behavior 6–12 months after exiting the program. Antisocial behavior is defined as a pervasive pattern of behavior that displays disregard for and violation of the rights of others, societal mores, or the law (such as deceitfulness, irritability, fighting, disruptive behavior, consistent irresponsibility, lack of remorse, or failure to conform to social norms). The number of youth tracked should reflect the number of program youth who are followed or monitored 6–12 months after completing program requirements. Self-report or staff ratings are the most likely data sources.	 A. Total number of program youth exiting the program 6-12 months ago tracked for the target behavior during the reporting period B. Of A, the number of program youth with the noted behavioral change during the reporting period C. B/A 	
19c	Gang resistance/ involvement (short term)	The number and percent of program youth who have exhibited a desired change in gang resistance behavior during the reporting period. Self-report or staff ratings are the most likely data sources.	 A. Number of program youth served during the reporting period with the noted behavioral change B. Total number of youth receiving services for the target behavior during the reporting period C. Percent (A/B) 	
19c	Gang resistance/ involvement (long term)	The number and percent of program youth who exhibited a desired change in gang resistance behavior 6–12 months after exiting the program. The number of youth tracked should reflect the number of program youth who are followed or monitored 6–12 months after completing program requirements. Self-report or staff ratings are the most likely data sources.	 A. Total number of program youth exiting the program 6-12 months ago tracked for the target behavior during the reporting period B. Of A, the number of program youth with the noted behavioral change during the reporting period C. B/A 	
19d	Social competence (short term)	The number and percent of program youth who have exhibited a desired change in social competencies during the reporting period. Social competence is the ability to achieve personal goals in social interaction while simultaneously maintaining positive relationships with others over time and across situations. Self-report or staff ratings are the most likely data sources.	 A. Number of program youth served during the reporting period with the noted behavioral change B. Total number of youth receiving services for the target behavior during the reporting period C. Percent (A/B) 	

PA 5: COMMUNITY-BASED PROGRAMS AND SERVICES

Bold indicates mandatory measures

#	Measure	Definition	Data Grantee Reports	Record Data Here
19d	Social competence (long term)	The number and percent of program youth who exhibited a desired change in social competencies 6–12 months after exiting the program. Social competence is defined as the ability to achieve personal goals in social interaction while simultaneously maintaining positive relationships with others over time and across situations. The number of youth tracked should reflect the number of program youth who are followed or monitored 6–12 months after completing program requirements.	 A. Total number of program youth exiting the program 6-12 months ago tracked for the target behavior during the reporting period B. Of A, the number of program youth with the noted behavioral change during the reporting period C. B/A 	
20	Number and percent of program youth completing program requirements	The number and percent of program youth who have successfully fulfilled all program obligations and requirements. This does not include youth who are still participating in ongoing programs. Program obligations will vary by program but should be a predefined list of requirements or obligations that youth must meet before program completion. The total number of youth (the B value) includes those youth who have exited successfully and unsuccessfully. Program records are the preferred data source.	 A. Number of program youth who exited the program having completed program requirements B. Total number of youth who exited the program during the reporting period (either successfully or unsuccessfully) C. Percent (A/B) 	
21	Number and percent of program families satisfied with the program	The number and percent of program families satisfied with the program in areas such as staff relations and expertise, general program operations, facilities, materials, and service. Self-report data collected using program evaluation or assessment forms are the expected data source.	 A. Number of program families satisfied with the program during the reporting period B. Total number of program families served by the program during the reporting period C. Percent (A/B) 	
22	Number and percent of program youth satisfied with the program	The number and percent of program youth satisfied with the program in areas such as staff relations and expertise, general program operations, facilities, materials, and service. Self-report data collected using program evaluation or assessment forms are the expected data source.	 A. Number of program youth satisfied with the program during the reporting period B. Total number of program youth served by the program during the reporting period C. Percent (A/B) 	
23	Number and percent of program staff with increased knowledge of the program area	The number and percent of program staff who gained a greater knowledge of the program area through trainings or other formal learning opportunities. Appropriate for any program whose staff received program-related training. Training does not have to be given by the program. Self-report data collected using training evaluation or assessment forms are the expected data source.	 A. Number of staff trained during the reporting period who report increased knowledge B. Number of staff trained during the reporting period and returning surveys C. Percent (A/B)

Self-report or staff ratings are the most likely data sources.	A. Number of program youth served during the program period with the noted behavioral changeB. Number of youth in the program who received services for this behaviorC. Percent (A/B)	
17	Number and percent of program youth completing program requirements	The number and percent of program youth who have successfully fulfilled all program obligations and requirements. This does not include youth who are still participating in ongoing programs. Program obligations will vary by program but should be a predefined list of requirements or obligations that youth must meet before program completion. The total number of youth (the B value) includes those youth who have exited successfully and unsuccessfully.	 A. Number of program youth who exited the program having completed program requirements B. Total number of youth who exited the program during the reporting period (either successfully or unsuccessfully) C. Percent (A/B) 	
		Program records are the preferred data source.		
18	Number and percent of program families satisfied with the program	The number and percent of program families satisfied with the program in areas such as staff relations and expertise, general program operations, facilities, materials, and service. Self-report data collected using program evaluation or assessment forms are the expected data source.	 A. Number of program families satisfied with the program during the reporting period B. Total number of program families served by the program during the reporting period C. Percent (A/B) 	
19	Number and percent of program youth satisfied with the program	The number and percent of program youth satisfied with the program in areas such as staff relations and expertise, general program operations, facilities, materials, and service. Self-report data collected using program evaluation or assessment forms are the expected data source.	 A. Number of program youth satisfied with the program during the reporting period B. Total number of program youth served by the program during the reporting period C. Percent (A/B) 	
20	Number and percent of program staff with increased knowledge of the program area	The number and percent of program staff who gained a greater knowledge of the program area through trainings or other formal learning opportunities. Appropriate for any program whose staff received program-related training. Training does not have to be given by the program. Self-report data collected using training evaluation or assessment forms are the expected data source.	 A. Number of program staff trained during the reporting period who report increased knowledge of diversion programs B. Number of program staff trained during the reporting period returning surveys C. Percent (A/B) 	
21	Number and percent of program youth formally processed	The number and percent of program youth who have been charged with a formal probation violation. Official records are the preferred data source.	A. Number of first-time offenders formally processedB. Number of first time offendersC. Percent (A/B)	

Additional Comments

Please Note: Enter zero (0) if you are able to collect and report data for the measure but there was no activity during the reporting period. If you enter 0 for another reason (e.g., data not tracked, activity not applicable), please explain.
